

DWAYNE BROWN, JR.

DB

OBJECTIVE

Customer-facing technical professional with 8+ years across SaaS onboarding and implementation (Ezoic) and technical escalation and service leadership (Tesla) – and a hands-on builder with a portfolio of shipped software, including production multi-tenant B2B SaaS with real third-party and AI integrations. I understand service-business customers firsthand and can build, demo, and implement the product – not just talk about it. Targeting Solutions / Sales Engineer, Technical Account Manager, Implementation, and Customer Success roles.

EXPERIENCE

Lead Service Advisor, Tesla | Encinitas, CA | Jan 2024 – Present

- Serve as the technical and operational point of contact during high-stakes service interactions, resolving ~8 escalated inquiries weekly while sustaining a 94%+ CSAT score.
- Mentor and develop a team of 6 advisors through training, feedback, and coaching that lifts service quality and team performance.
- Identify process inefficiencies and implement workflow improvements, driving a ~20% better service experience and ~10% reduction in resolution time.
- Consistently meet or exceed quarterly targets while helping stand up a newly opened service location.

Technical Onboarding Specialist, Ezoic | Carlsbad, CA | Oct 2022 – Jun 2023

- Managed onboarding for ~20 client accounts per month, providing expert technical support to diverse SaaS clients and reducing time-to-productivity ~20% through tailored training and guidance.
- Acted as platform SME, mentoring junior team members and giving structured feedback that reduced onboarding friction ~10%.
- Documented recurring customer issues and fed actionable insights to product, improving customer satisfaction ~12%.

Virtual Customer Support Specialist, Tesla | Carlsbad, CA | Oct 2021 – Oct 2022

- Resolved 3,000+ complex technical escalations at a 98% resolution rate, translating complexity into clear, user-friendly guidance.
- Communicated technical solutions across phone, email, and chat.
- Authored process documentation and best practices that cut average resolution time ~15% and improved alignment across remote support.

Additional positions held at Tesla:

- Service Advisor (Jun 2020 – Oct 2021)
- Delivery Experience Specialist (Jul 2017 – Jun 2018)
- Customer Experience Specialist III & Specialist (Sept 2016 – Jul 2017)

KEY PROJECTS
